

Deliverable no. 1, ref. D6.1, Project website

By The Bernstein Consortium, ECP·2005·CULT·038097/Bernstein

To eContentPlus, European Commission, Information Society and Media Directorate-General

Ref. Deliverable no. 1, ref. D6.1, Project website, due 2006.09

Project website

Summary

The Internet presence of the project is composed of a project presentation, an products portal and a development site. The *project presentation* explains what the consortium does, for what kind of applications its output is meant and for which groups of users. It also presents the public activities organized by the consortium and lists the consortium partners. The *products portal* gives access to the project's products, mostly software such as the integrated workspace, but also educational material. The *development site* serves the consortium internally as a blackboard and a document repository for products development and project management. It functions as wikipages, freely modifiable by all partners (TWiki software).

CONSORTIUM

THE MEMORY OF PAPERS

COLLABORATIVE SYSTEMS FOR PAPER EXPERTISE AND HISTORY

NEWS

- Kick-off meeting 4-6 September, Paris/Luxembourg
- 1, 2, 3 Go! : Project starts on 1st September

EVENTS

- Paper studies workshop, June 2007
- Paper studies exhibition, February 2009, Vienna, Austria

PRODUCTS

- Databases
 - NIKI
 - Piccard
 - WILC
 - WZMA
- Image processing
 - AD751
 - BlueNile
- Contextual resources
 - IBPH (pdf)
- Papers
 - Digitization costs (txt)
 - Paper databases (txt)
- Links
 - IPH

The Bernstein Consortium produces digital resources for the expertise and history of paper based on images reproducing the structure of the paper: databases, image measurement tools, contextual resources and an integrated workspace providing interoperability between these components. Additionally the Consortium organizes workshops and an exhibition on paper studies.

The Bernstein project runs from September 2006 to February 2009 and is co-financed by the eContentplus program of the European Commission.

PARTNERS

The Consortium consists from the following partners:

- Austrian Academy of Sciences, Vienna, Austria [coordinator]
- Archives of the State of Baden-Württemberg, Stuttgart, Germany
- Technical University Graz, Graz, Austria
- National Center for Scientific Research / University Paris 1, Paris, France
- Deutsche Nationalbibliothek, Leipzig, Germany
- Dutch University Institute for Art History Florence, Florence, Italy
- Delft University of Technology, Delft, Netherlands
- Koninklijke Bibliotheek, The Hague, Netherlands
- Liverpool University, Liverpool, United Kingdom

FAQ

A short document presenting the project in greater detail can be found [here](#) [pdf].

IDENTITY

Wonder why we're called "Bernstein"? Find out about our name and visual identity [here](#).
